Dear Students,

Congratulations and welcome to the Kmicro internship program.

We are thrilled to have you join us as interns in our Industrial AI team (AI, Data and Cybersecurity) team.

Your internship commenced from 3rd May and we are excited about the energy and fresh perspectives you will bring to our projects.

During the next 8 weeks, you will be engaging in meaningful work under guidance of Mr.Ashish Kumar of Microsoft. This project not only contributes to our objectives, but also enhances your learning experience. You will work closely with experienced professionals who are eager to guide you as you navigate through your tasks and responsibilities.

Please prepare to attend an orientation sessions, where you will learn more about our company culture, meet your team, and get an overview of the tools and resources you will be using. Also, feel free to reach out to me directly at any time if you have any questions before you start.

We look forward to seeing you on this journey and are confident that you will have a productive and enjoyable internship with us.

Please note there are not commercial or payout for this internship and successful candidate will get participation certification from kmicro.

Thank you and best of luck.

Best Regards,

Amit Sachdev, VP – Engineering and Prof Services
